COMPENDIUM OF VOCATIONAL OPTIONS AFTER

CLASS X

COMPENDIUM OF VOCATIONAL OPTIONS AFTER CLASS X

A Guide to Certificate and Diploma Courses Available in Delhi

Compilation, Editing and Design by
Abha Sadana & Dr. Anviti Singh

Modern Institute For Education (MIE), Modern School Barakhamba Road, New Delhi – 110001

First Edition January 2024

Preface

In the journey of education and career exploration, the choices made after completing class X can significantly shape one's future. The path you choose is not just a decision; it's an investment in your dreams and goals. This Compendium of Vocational Options after Class X, focusing on diploma and certificate courses in Delhi, is designed by the Modern Institute for Education to be your guide, your companion, your compass, and your source of inspiration. There are a wide variety of choices and one choose as per one's interest.

Each page within this compendium is a gateway to understanding the rich tapestry of vocational courses, diplomas, and certificates that can set you on the path to a rewarding career. The Modern Institute for Education has meticulously curated information about these courses, the government and private institutions offering them, and the potential career pathways, they can lead to. The list may not be exhaustive, but it provides a bird's eye view of opportunities available in Delhi.

Whether you aspire to become a skilled technician, a digital marketer, a beautician, a chef, a healthcare professional, or an artist, this compendium will help you explore your options. It's a comprehensive resource for those who believe in the power of practical skills and hands-on learning.

The future is yours to shape, and the choices you make today will pave the way for the successful, fulfilling career you envision. Use this compendium as your stepping stone and set forth on the path that aligns with your passion, potential, and aspirations.

Your journey begins here. Welcome to the world of vocational education in Delhi, where your dreams and ambitions can take flight.

Best wishes on your journey of discovery and success!

MIE Team

Compendium of Vocational Options after Class X

A Guide to Certificate and Diploma Courses

Empowering young minds through vocational education is not just a pathway to skills; it's a gateway to self-reliance, resilience, and a future where every talent finds its purpose in the canvas of progress.

Introduction

Board examinations are considered important milestones in children's lives. Being on the cusp of adulthood, this is the time students need to choose a path that leads them to fulfil their dreams, and aspirations, and lead a fulfilling, meaningful life. However, they require assistance while assessing their skills, abilities, and interests, as well as determining courses commensurate with the skills, aptitudes, and interests to begin their career path. In the last decade, it has been observed that traditional and stereotyped job roles are transforming, and new job roles are emerging due to automation, globalization, and fast-changing consumer preferences in all trades, industries and services such a gig world, health care paraphernalia, tourism, or hospitality industry. Academic qualifications alone cannot meet the ever-increasing demand for specialized skilled jobs of diverse sectors because these jobs require a unique combination of hands-on experience, industry-specific knowledge, and a nuanced understanding of evolving technologies or methodologies. Employers in India and abroad increasingly value candidates who not only possess academic achievements but also showcase a practical mastery of the specific skills essential to excel in their respective fields.

Ministry of Skill Development and Entrepreneurship (MSDE) has addressed this issue and launched the Skill India Mission. Under the Mission, more than 20 Central Ministries/Departments are implementing Skill Development Schemes/Programmes to enhance the skill levels of millions of people including School Children on pan India basis to create a skilled workforce as per the needs of the industry. MSDE in association with the Ministry of Education (MoE) has implemented the 'Skill Hub Initiative' scheme under Pradhan Mantri Kaushal Vikas Yojana 3.0 (PMKVY 3.0). The skill hubs are being created to provide certified industry-relevant skill training aligned with industry standards and demands to eligible candidates for free or at subsidized rates. More than 37 Sector Skill Councils, autonomous industry-led bodies, have been setup for creating occupational standards, competency frameworks, and qualification packs relevant to their sectors. They conduct 'train the trainer' programs, skill gap studies and assess and certify trainees on the curriculum aligned with National Occupational Standards developed by them.

In January 2022, the National Council for Vocational Education and Training (NCVET) was set up to standardize and regulate the skill development ecosystem through regulating assessment and certification processes, promoting industry-integrated learning, flexibility, and ensuring quality assurance. Its job is to recognize skills in demand at national and international levels and prepare curriculum, elevate the quality, set standards and training mechanisms to popularise, and make it relevant in the domain of vocational education.

To improve the connection between industry and ITIs the dual-learning mode has been introduced. Under the dual-learning mode of training, the theoretical instructions and basics about safety and tools,

equipment along with foundation practical will be imparted in ITIs, and relevant on-the-job training for that particular trade will be given in the industry. ITIs are required to enter MOUs with industries/employers where they want to send their trainees for on-the-job training.

Similarly, the Craftsmen Training Scheme and National Apprenticeship Promotion Scheme (NAPS) are government schemes to facilitate job-oriented skilled training for aspiring students.

In a nutshell, to realize its goal of a "Skilled India," the Ministry strives to skill on a broad scale with speed and high standards.

The National Skill Development Corporation (NSDC) has established Sector Skill Councils (SSCs) as a crucial component to address the gap between industry demands and skill development requirements in India. These SSCs operate autonomously as registered Section 8 Companies or Societies, playing a pivotal role in implementing the Skill India Mission. They are tasked with identifying skill development needs, creating sector-specific skill development plans, maintaining skill inventories, and setting competency standards aligned with the National Skill Qualification Framework (NSQF. Notably, SSCs focus on ensuring that individuals, trained under their purview, find employment at decent wages. To enhance employment opportunities, SSCs are encouraged to develop placement portals and mobile apps that connect candidates and training partners with recruitment firms and potential employers, fostering a 360-degree interface to meet industry skill needs effectively. The list of the Sector Skill Councils is attached as ANNEXURE 1.

The Ministry also plans to collaborate with the current network of academic institutions, skill development centres, and other industry alliances. To promote multi-level participation and the more effective execution of skill development initiatives, partnerships with pertinent Central Ministries, State governments, foreign organizations, businesses, and non-governmental organizations have also been started.

Till date, plethora of courses are available in the vocational landscape now due to the interest and initiatives of government and private sector. However, there is a challenge for students in terms of searching, selecting and enrolling in the most relevant and high-quality programs. To address this, MIE has designed a compendium to serve as a suggestive roadmap for students who after completing their class X education, aim to attain and enhance skills to be employable in the market or to become an entrepreneur.

The compendium titled, "Compendium of Vocational Options after Class X: A Guide to Certificate and Diploma Courses" contains invaluable information about government approved certificate and diploma courses being offered by government, government aided, affiliated and private institutes, that students may pursue after passing Class X examination. There is a wide range of courses covered in this compendium, from engineering and non-engineering courses to technical and industrial courses. However, it should be emphasized that the list of courses presented here may not be exhaustive, and there are many more vocational courses available due to the dynamic and ever evolving nature of the job market.

Before delving deep into the compendium, it is essential to understand the key terms - certificate and diploma.

Certificate

Certificate courses focus on specific topic of any vocational stream and provide skill-based training to prepare students for particular vocations. These courses are shorter in duration as compared to diploma courses and focus more on hands-on training. These courses generally last between six months to two years depending on the course one chooses to pursue. A minimum of an VIII or X pass is required for admission. In the case of students who wish to pursue higher education, they can get lateral entry into the second year of the diploma program.

Some certificate courses are of quite short duration. These courses usually focus on one specific skill or ability. For example, certificate courses that teach cooking, baking, photography, event management, beauty and makeup, MS Office, and stock trading are very popular. These courses help develop skills that can help students set up a business on their own. Some certificate courses also equip students with skills like computer hardware maintenance, mobile repair, and graphic design that make them employable in big companies.

Advantages of Certificate Courses:
- Quick Courses: Certificate courses generally range from a few months to a year, enabling students to swiftly gain the necessary skills for entering the workforce.
- Diverse Course Options with Hands-on Learning: ITIs offer a broad range of certificate courses in different trades and occupations emphasizing a practical, hands-on approach to learning, focusing on skill development and on-the-job training.
- Immediate Employment: After completing a certificate course, students can start working immediately in their chosen field, offering opportunities in various trades and occupations.
- Affordability: Certificate courses are generally more affordable than other vocational education options, making them accessible to a broader range of students.
- Option of Credit Transfer: After completion of the certificate course, one can either take up a job or get admission for the second year directly through lateral entry in a Diploma course.

Disadvantages of Certificate Courses:

- Limited Depth of Study: Certificate courses are usually of short-term in specific trades, which may lack the same depth of theoretical and academic knowledge as other forms of vocational education.
- Restricted Career Options: These courses may not offer the same variety of career paths as other vocational education options, limiting opportunities for higher education or certain professional careers.

Diploma

Diploma courses also known as professional courses are longer and more comprehensive and provide more in-depth knowledge than the Certificate courses, which cover both theory and practical aspects

in greater detail. They are of two to three and in some cases four-year courses designed for students of X or XII. Diplomas typically fall between certificates and degrees in terms of duration and depth.

These courses are generally conducted by vocational institutes and polytechnic colleges. Students who have studied Mathematics and Science in classes IX and X can take an entrance exam and join a diploma course in a polytechnic college in their state. ITI also offers non-technical and non-engineering courses that do not require Math and Science as minimum eligibility criteria for admission.

According to National Council for Vocational Education and Training (NCVET) Diploma guidelines, "The term 'Diploma' is used variedly formally & informally across the world. Generally, it is used to denote a certificate awarded by an educational establishment to show that someone has completed a course of learning.

Advantages of Diploma Courses After X:
- The diploma is helpful for specific professions that do not require a degree-level qualification.
- Specialized knowledge: Diploma courses offers a fine balance of in-depth knowledge and expertise of the course along with a valuable hands-on experience in their field of study.
- Direct Entry into Job Market: A diploma allows candidates to have a rewarding job immediately after two/three years of enrolment depending on the duration of the course.
- Option of Credit Transfer: After completion of the diploma course, one can either take up a job or get admission for the second year directly through lateral entry in a BTech or BE course.
- Economic Viability: Cost-effectiveness of the courses make them affordable to all aspirants.

Disadvantages of Diploma Programs:

- Restricted Advancement Opportunities: Diploma programs do lead to finding employment, but they may not offer the same opportunities for career advancement as degree programs.

- Narrow Scope of Study: Diploma programs tend to be more specialized, focusing on a specific field or discipline. This specialization may limit the academic breadth for students interested in a broader range of subjects.

- Lower Earning Potential: Graduates with diplomas may experience lower earning potential compared to those with degrees, as some industries prioritize candidates with higher levels of education.

How to decide the suitable certificate/diploma courses?

The job market offers a diverse range of career opportunities. However, choosing a course from such a wide range seems a bit confusing. It is imperative to be clear about one's strengths, interests, and abilities before making an informed decision about which course to take and which career path to pursue. The choices they would make and complete either a diploma or certificate course will lead them to an entry-level job in their chosen field in both government and private sector. However, they

must realize that it is the first step towards their goal. Considering the dynamic and ever-evolving landscape of the job market, lifelong learning is the key to being successful in one's chosen career path as to be relevant one must advance the required skills in his/her chosen field.

Institutes offering certificate and diploma courses.

Four types of institutes offer the certificate and diploma courses: government, government-aided, affiliated and private. Centre and State governments have set up Industrial Training Institutes (ITI) and polytechnics to impart training in various technical skills from different engineering and non-engineering sectors.

Main Differences between ITI and Polytechnic

- Period of study: ITI courses are generally for short duration, ranging from 6 months to 2 years, while Polytechnic programs are more extensive, which may last upto 3 years.
- Area of study: ITI generally gives emphasis on skill development and vocational training in specific trades, providing hands-on training in areas like draughtsman, fitter, machinist, electrician, welder, plumber, etc. Polytechnic, on the other hand, offers more in-depth knowledge in engineering and technology disciplines, covering subjects such as electronics engineering, civil engineering, mechanical engineering, electrical engineering, automobile engineering etc.
- Employment Opportunities: ITI courses prepare students for employment in skilled trade jobs, providing them with the practical skills needed for specific industries. Polytechnic programs, on the other hand, aim to equip students with a comprehensive understanding of engineering principles and prepare them for higher education or technical roles in various industries.
- Scope: Certificates awarded by ITI are typically recognized for jobs in industries and skilled trades, while diplomas from Polytechnic institutions are recognized for pursuing further education or securing engineering-related jobs.

The list of government, government aided as well as private ITI colleges and polytechnics situated in Delhi is given in ANNEXURE 2. One must check the website of Directorate of Training and Technical Education, Government of NCT of Delhi for the constant updates on the list.

In addition to these, open universities also offer such courses. In this digital era, a multitude of online and distance courses are being offered that allow us to hone skills and capabilities side by side while running a business or doing a job. According to eligibility criteria, entrance tests (if any), and individual preferences, students can enrol in any of the courses and upskill themselves.

One may also harness the power of social media by listening to podcasts, attending webinars, and following successful entrepreneurs related to the field chosen to learn practical aspects of the trade/area of interest.

Admission Criteria & Process

The basic eligibility criteria for ITI admission are mentioned below:

- Educational Qualifications: Candidates must have successfully passed Class VIII/X or an equivalent examination from a recognized board. Common Entrance Test (CET) needs to be cleared to take admission in Diploma courses in Government ITI and Polytechnics admissions.

- Age Limit: Candidates must be at least 14 years of age.

- Nationality: Candidates must be citizens of India to apply for ITI Admission.

- Domicile: Candidates must be a resident of that particular state.

However, admission criteria for government ITIs and Private ITIs vary to a great extent. From entrance examinations to merit-based to direct admission, all are in vogue. Admission criteria also vary depending on the courses opt for. Therefore, it is important to know the admission process before submitting the application form. Those who are selected as per the merit list, need to attend the counselling process as per the schedule. A glossary of some very useful links for further information has been added as ANNEXURE 4 in the compendium.

Competitive Exams for Career Opportunities after Class X

Students can pursue diploma and certificate courses from the above mentioned government and private institutions in upgrading their skills to enhance their employability skills and at the age of 18, they can also sit for several competitive examinations to enter government sector jobs in banking, railways, defence, multi-tasking staff (MTS), apprentice, driver, etc. These exams are conducted by different government bodies like the Railway Recruitment Board (RRB), Staff Selection Commission (SSC), Delhi Subordinate Services Selection Board, etc. The list of the organisations which conduct the tests has been compiled and incorporated in the following pages. However, students, who are interested in applying for such jobs and examinations should keep themselves abreast of the information provided on various social media, websites and other useful resources like newspapers, employment news, etc. for the dates and venue of centres. The list of the most important competitive exams for career opportunities after Class X is placed in ANNEXURE 3

Conclusion

This compendium has attempted to provide a glimpse of the job market, if one wishes to be employed after class X. However, it is important to recognize that certificate and diploma courses are not an end in themselves. Rather they open the doors to a long road on a career path full of possibilities and success. The courses mentioned in the compendium will help students to make informed decisions and fulfil their dreams and aspirations. This compilation will certainly act a torchbearer and guide in one's flight to embrace the desired career.

The Modern Institute for Education wishes all aspirants a grand success in their endeavour to fulfil their dreams!

Disclaimer

The Compendium of Vocational Education provided here is intended for informational purposes only. While every effort has been made to ensure the accuracy and reliability of the information contained within, users are advised to verify information related to the chosen courses. The information presented in this compendium is subject to change and update without notice. The reason being National Council for Vocational Education and Training is bringing about various changes in the existing eco-system of vocational education and training at the time the compendium is being prepared.

Students are urged to explore options beyond this compendium and register for courses that align with their specific needs, aptitudes, interests, and abilities. It is recommended that users verify and cross-reference the information with authoritative sources or consult with relevant experts or institutions when making important decisions based on the content provided.

CAREER OPTIONS AFTER CLASS 10: CERTIFICATE COURSES

Trade/Course	Type of Course	Details	Institution
APPAREL			
Computer Aided Embroidery & Designing	Non-Engg	Duration: 2 Sem - 1 Year The course helps in developing skills to make computerized design with the application of software for applique work, sequins work, taping work, cording work, chenille work etc. Eligibility: 10th pass	ITI - NCVT Affiliated: 0 SCVT Affiliated: 0
Dress Making	Non-Engg	Duration: 2 Sem - 1 Year The course provides knowledge of garment making, skills to utilize materials and create exciting designs and is suitable for self-employment and jobs in the garment manufacturing industry and its allied fields. Eligibility: 10th pass	ITI - NCVT Affiliated: Mangolpuri, Siri Fort SCVT Affiliated: 0
Fashion Design & Technology	Non-Engg	Duration: 2 Sem - 1 Year ITI fashion designing course covering the study of fashion illustration, fashion ornamentation, fashion accessory, textile science, fashion marketing & management, product specification, sewing, and many more. Eligibility: 8th pass	ITI - NCVT Affiliated: Nizamuddin, Dheerpur, Jail Road, Mayur Vihar, Jaffarpur, BTC, Mangolpuri, Siri Fort, MSDP SCVT Affiliated: Jail Road, Narela, Sirifort, Mori Gate PVT: Apeejay Institute of Design,
Sewing Technology	Non-Engg	Duration: 2 Sem - 1 YearThe course prepares students for jobs such as sewing technician, garment quality controller, pattern maker, production supervisor, etc. Eligibility: 10th pass	ITI - NCVT Affiliated: ITI Pusa, Shadara, Jahangir puri, Nand Nagri, BTC, Sirifort, Morigate, Tilak Nagar, Hastsal, MSDPSCVT Affiliated: Morigate PVT: Saraswati Mahila Shilp Kala Kendra, N.D.M.C. Pvt. Women, Anurag Industrial Training Centre, Sulabh Private Industrial Training
Surface Ornamentation Techniques (Embroidery)	Non-Engg	Duration: 2 Sem - 1 Year The course teaches skills to become tracing experts, hand embroider, zig-zag machine operator, aari embroider, motif maker, entrepreneur. Eligibility: 8th pass	ITI - NCVT Affiliated: MSDP SCVT Affiliated: 0 PVT: N.D.M.C. Pvt. Women ITI
Textile Designing	Non-Engg	Duration: 2 Sem - 1 Year The course prepares students for a wide range of careers within the fashion textile industry as textile designers, product developers, colour forecasters, or material researchers. One can also launch own business and work as a freelancer. Eligibility: 8th pass	ITI - NCVT Affiliated: 0 SCVT Affiliated: Sirifort Pvt : International Polytechnic for Women, Malviya Nagar; https://intpoly.org/#

Trade/Course	Type of Course	Details	Institution
AUTOMOTIVE			
Mechanic Auto Body Painting	Engg	Duration: 2 Sem - 1 Year The course teaches skills to get jobs as auto body painters, automotive refinish technicians, paint shop supervisors, custom car painters, and more. Eligibility: 8th pass	ITI - NCVT Affiliated: Pusa, Nizamuddin, Dheerpur, Mangolpuri SCVT Affiliated: 0
Mechanic Auto Body Repair	Engg	Duration: 2 Sem - 1 Year The course teaches skills of repairing and restoring damaged automobiles, find issues, make repairs leading to getting jobs in auto-fix shops, showrooms, or even work independently. Eligibility: 8th pass	ITI - NCVT Affiliated: Pusa, Nizamuddin, Dheerpur, Mangolpuri SCVT Affiliated: 0
Mechanic Auto Electrical & Electronics	Engg	Duration: 2 Sem - 1 Year The course prepares students to get into jobs as a mechanic and technicians in many industries such as IT, electronics, power, manufacturing, construction and building services, and transport. Eligibility: 8th pass	ITI - NCVT Affiliated :Nizamuddin, Dheerpur, Jail Road, Jahangirpuri, Nand Nagri SCVT Affiliated: Jail Road
Mechanic Diesel	Engg	Duration: 2 Sem - 1 Year The course deals with the maintenance, repair, and troubleshooting of diesel-powered engines etc. and skills to become machine operators, engine mechanics, automobile mechanics, tool handlers, and pump operators. Eligibility: 8th pass	ITI - NCVT Affiliated: Pusa, Jail Road SCVT Affiliated: Jail Road
Mechanic Electric Vehicle	Engg	Duration: 4 Sem - 2 Years The courses teaches skills to repair, overhaul and service motor vehicles to keep them in good running condition and helps to secure job in growing industry of Electric Vehicle. Eligibility: 10th pass + enrolled for class 12th through NIOS	ITI - NCVT Affiliated: 0 SCVT Affiliated: Pusa, Dheerpur, Narela, BTC
Mechanic Motor Vehicle	Engg	Duration: 4 Sem-2 years The course trains to be an auto mechanic, service technician, auto fitter, vehicle operator, or auto electrician. The student can also be self-employed in the same field. Eligibility: 8th pass	ITI - NCVT Affiliated: Pusa, Nizamuddin, Shahdara, Dheerpur, Jail Raod, JahangirPuri, NamdNagri, Mayur Vihar, Narela, BTC SCVT Affiliated: Jaffarpur PVT: PVT: Sri Guru Harkrishan

Trade/Course	Type of Course	Details	Institution
Mechanic Two & Three Wheeler	Engg	Duration: 2 Sem - 1 Year The course imparts professional skills and knowledge, workshop calculation & science, engineering drawing wrt the industry and equips the person to find the job in the related industry. Eligibility: 8th pass	ITI - NCVT Affiliated :Malviya Nagar, Jail Road, Nand Nagri, Jaffarpur SCVT Affiliated: Nizamuddin, Dheerpur, Mayur Vihar
Motor Cycle Service and Repair(CMSR)	Engg	Duration: 2-6 months The course imparts skills to be a motor vehicle mechanic to work on the mechanical, electrical, and electronic parts of motor vehicles so as to find jobs of motor mechanic, clutch specialist, brake specialist, etc. Eligibility: 14 Yrs, Functionally literate working motorcycle technicians	IGNOU - Distance Learning http://www.ignou.ac.in/ignou/about ignou/school/soet/programmes/deta il/280/2 NCTA - Online https://www.nctaindia.in/courses.as px.course_id=158
BEAUTY & WELLNESS			
Basic Cosmetology	Non-Engg	Duration: 2 Sem - 1 Year The course relates to beautifying and improving the skin, hair, and the study of cosmetics and their application for private job, and self-entrepreneurship. Eligibility: 10th pass	NCVT Affiliated: ITI - Mangolpuri, Siri Fort, Morigate, Tilak Nagar, Hastsal, MSDP SCVT Affiliated: Dheerpur, Jahangir puri, Mayur Vihar, Mori Gate
Cosmetology	Non-Engg	Duration: 2 Sem - 1 Year The course relates to beautifying and improving the skin, hair, and the study of cosmetics and their application for private job, and self-entrepreneurship. Eligibility: 10th pass	NCVT Affiliated: ITI - Mangolpuri, Siri Fort, Morigate, Tilak Nagar, Hastsal, MSDP SCVT Affiliated: Dheerpur, Jahangir puri, Mayur Vihar, Mori Gate
CAPITAL GOODS & MANUFACTURING			
Draughtsman (Mechanical)	Engg	Duration: 4 Sem - 2 Years The course teaches skills to create a drawing used in manufacturing and construction and imparts skills in finding jobs in manufacturing industries, construction, infrastructure and defence organizations. Eligibility: 10th pass	ITI - NCVT Affiliated: Pusa, Nizanuddin, Shahdara, Dheerpur, Jahangir Puri, Jaffarpur, Narela, Mangolpuri SCVT Affiliated: 0 PVT: Don Bosco Technical Institute, Baba Saheb Ambedkar Pvt. ITI, Baba Saheb Ambedkar Pvt. ITI, NSIC Tech. Services Centre Pvt.

Trade/Course	Type of Course	Details	Institution
Fitter	Engg	Duration: 4 Sem - 2 Years The fitters fit, fabricate, and assemble the components that make up mechanical systems and hence get jobs in the automobile, aerospace, manufacturing, and mining industries. Eligibility: 10th pass	ITI - NCVT Affiliated: Pusa, Nizamuddin, Shahdara, Dheerpur, Malviya Nagar, Jail Road, Jahangir Puri, Nand Nagri, Mayur Vihar, Narela, BTC SCVT Affiliated: Malviya Nagar, Narela PVT: Saraswati Private ITI, Baba Saheb Ambedkar Pvt. ITI, Shikshaitan Private ITI, Saraswati Private ITI
Machinist (Grinder)	Engg	Duration: 4 Sem - 2 Years The course imparts skills to work as semiskilled machinist grinder, basic fitting and operation in lathe, drilling, cnc operating and programming as well as various forms of grinding. Eligibility: 10th pass	ITI - NCVT Affiliated: Shahdara SCVT Affiliated: 0 PVT: Don Bosco Technical Institute
Mechanic Refrigeration and Airconditioning	Engg	Duration: 4 Sem - 2 Years The course imparts professional skills and knowledge to be refrigeration and air conditioning technicians, maintenance technicians, installation specialists, and refrigeration mechanics. Eligibility: 10th pass	ITI - NCVT Affiliated: Pusa, Nizamuddin, Shahdara, Dheerpur, Jaffarpur, BTC, Malviya Nagar, Jail Road, Jahangir Puri, Nand Nagri, Mayur Vihar, Narela, Mangolpuri SCVT Affiliated: 0 PVT: Sri Guru Harkrishan Pvt , Baba Saheb Ambedkar Pvt. ITI
Technician Mechatronics	Engg	Duration: 4 Sem - 2 Years The course imparts knowledge and trade skills on workshop calculation and science, engineering drawing and find jobs in the industry as a technician or become an entrepreneur in a related field. Eligibility: 10th pass	ITI - NCVT Affiliated: 0 SCVT Affiliated: Nizamuddin
Tool & Die Maker (Dies & Moulds)	Engg	Duration: 4 Sem - 2 Years The course imparts professional skills and knowledge while performing the job of a tool & die maker (dies & moulds) and machining work. Eligibility: 10th pass	ITI - NCVT Affiliated: Shahdara SCVT Affiliated: 0

Trade/Course	Type of Course	Details	Institution
Tool & Die Maker (Press Tools, jigs & Fixtures	Engg	Duration: 4 Sem - 2 Years The course prepares to join industry as technicians, assisting tools and die makers become tool designers and even become an entrepreneur of tool and die shops. Eligibility: 10th pass	ITI - NCVT Affiliated: Shahdara SCVT Affiliated: 0
Turner	Engg	Duration: 4 Sem - 2 Years The course imparts the skill of being a turner who maintains equipment, take accurate measurements, assemble and polish metal components, and hence to find jobs in related industry. Eligibility: 10th pass	ITI - NCVT Affiliated: Shahdara, Jail Road, Jahangir Puri, Nand Nagri, Mayur Vihar, Narela (20) SCVT Affiliated: 0 PVT: Don Bosco Technical Institute
Welder	Engg	Duration: 4 Sem - 2 Years The courses focuses on imparting skills on arc welding, gas welding, gas cutting, ferrous & nonferrous metals welding, Pipe welding etc. to work in many industries including ONGC, NTPC, BHEL and ship building Industry etc. Eligibility: 10th pass	ITI - NCVT Affiliated: Pusa, Nizamuddin, Dheerpur, Malviya Nagar, Jail Road, Jahangir Puri, Nand Nagri, Mayur Vihar, Jaffarpur, Narela, BTC SCVT Affiliated: 0
CONSTRUCTION			
Architectural Draughtsman	Engg	Duration: 4 Sem - 2 Years The course imparts skills to study notes sketches & engineering data to prepare drawings of buildings, parks, gardens, monuments etc. and works for architects in private and public sector. Eligibility: 10th pass	ITI - NCVT Affiliated: Nizamuddin, Sirifort, Vivek Vihar, MSDP SCVT Affiliated: 0
Carpenter	Engg	Duration: 2 Sem - 1 Year The course broadly covers sizing of timbers, cutting plywood, timber jointing, exterior finish, interior finish, and commercial carpentry etc. and persons can find job in related industries including self-employment. Eligibility: 8th pass	ITI - NCVT Affiliated: PUSA, Nizamuddin, Shahdara, Dheerpur, Malviya Nagar, Jail Road, Jahangir Puri, Nand nagri, Mayur Vihar, Jaffarpur, Narela, BTC, Mangolpuri, Sirifort, Morigate, MSDP SCVT Affiliated: Dheerpur PVT: Raj Singh Pvt. , Aakashline Pvt. ITI, Gauri Food Craft Institute

Trade/Course	Type of Course	Details	Institution
Draughtsman Civil	Engg.	Duration: 4 Sem - 2 Years This course prepares students to create blueprints, layout plans, structural drawings, and other technical documentation required in the construction industry and helps to find jobs in private sector, public sector, or self-employment. Eligibility: 10th pass	ITI - NCVT Affiliated: PUSA, Nizamuddin, Shahdara, Dheerpur, Malviya Nagar, Jail Road, Jahangir Puri, Nand nagri, Mayur Vihar, Jaffarpur, Narela, BTC, Mangolpuri, Sirifort, Morigate, MSDP SCVT Affiliated: Dheerpur PVT: Raj Singh Pvt., Aakashline Pvt. ITI, Gauri Food Craft Institute
Interior Design & Decoration	Engg	Duration: 2 Sem - 1 Year This course imparts knowledge on interior design technologies, colour theory, computer-aided design methodologies, and their applications in the field to get entry-level jobs in architectural firms, interior design companies, TV, Theatres, etc. Eligibility: 10th pass	ITI - NCVT Affiliated: Pusa, Dheerpur, Mayur Vihar, Sirifort SCVT Affiliated: Mayur Vihar Pvt: Apeejay Institute of Design
Surveyor	Engg	Duration: 4 Sem - 2 Years The course teaches skills to conduct surveys and the technique of drawing and determine the boundary of any property, from where to where any construction work will be done and hence helps in getting jobs in construction industry, Eligibility: 10th pass	NCVT Affiliated: Pusa SCVT Affiliated: 0
ELECTRONICS & HARDWARE			
Electronic Mechanic	Engg	Duration: 4 Sem - 2 Years The course imparts training and learning of electronic hardware and prepares one to find job as an Electronics Mechanic, Maintenance Technician, ITI Mechanic etc. Eligibility: 10th pass	ITI - NCVT Affiliated: PUSA, Nizamuddin, Shahdara, Dheerpur, Malviya Nagar, Jail Road, Jahangir Puri, Nand nagri, Mayur Vihar, Jaffarpur, Narela, BTC, Mangolpuri, Sirifort, Morigate SCVT Affiliated: 0 PVT: St. Johns Pvt. ITI, Sri Guru Harkrishan Pvt, Raj Singh Pvt., Baba Saheb Ambedkar Pvt. ITI
Instrument Mechanic	Engg.	Duration: 4 Sem - 2 Years The course imparts knowledge and skills to study transformer, basics of electrical measuring instruments, meter range etc. and hence to find entry-level jobs in railways, automation, defence, petrochemicals, petroleum, manufacturing units, assembly plants, etc. Eligibility: 10th pass	ITI - NCVT Affiliated: Nizamuddin SCVT Affiliated: 0

Trade/Course	Type of Course	Details	Institution
Mechanic Consumer Electronic Appliances	Engg	Duration: 4 Sem - 2 Years The course imparts the skills to get jobs in various consumer/domestic electronics appliance manufacturing industries, home appliances manufacturing company etc. Eligibility: 10th pass	ITI - NCVT Affiliated: Dheerpur SCVT Affiliated:0
Technician Medical Electronics	Engg	Duration: 4 Sem - 2 Years The course provides hands-on training in handling and repairing various medical electronic devices and equipment and opens doors to becoming either an entrepreneur or to be employed in corporate hospitals/Central or State Medical departments or Medical Equipment manufacturing etc. Eligibility: 10th pass	ITI - NCVT Affiliated: Sirifort SCVT Affiliated: 0
Technician Power Electronic Systems	Engg	Duration: 4 Sem - 2 Years The course is meant to become a technician to maintain and repair power electronic equipment in order to find jobs in manufacturing industries, power generation, and distribution companies, renewable energy companies etc. Eligibility: 10th pass	ITI - NCVT Affiliated: Dheerpur, Mangolpuri SCVT Affiliated: 0
FOOD INDUSTRY			
Craftsmanship Certificate Course in Food Production & Patisserie	Non-Engg	Duration: 1 Year 6 months 1½ year craft certificate program in the specialised trade of Food Production and equip students with basic skills required in the kitchens of the hospitality industry immediately on completion mainly at entry level as cooks, commis, kitchen assistants, etc. Eligibility: 10th pass	National Council for Hotel Management And Catering Technology https://nchm.gov.in/

List of Private ITI Colleges in Delhi

https://tte.delhi.gov.in/

Following is the list of Private ITI institutions which offer selected certificate as well as diploma courses on vocational training approved under NCT and SCVT categories. Students can take admission in these institutions by clearing Common Entrance Test (CET) or even direct admissions. The common entrance test is undertaken in the month of March/April every year. Approx. 4-5 lakh students sit for the entrance test every year for limited number of seats. In case students do not clear the entrance test, there is still a hope to do the course of their choice to fulfil their dream but paying a relatively high fees as compare to Govt. run institutes. While choosing the course, it is advised that students should visit the centre physically and/or the website.

Note: The following list is dynamic in nature and the names can be deleted or added every year. It is suggested that the names of the institutes must be confirmed from Directorate of Training and Technical Education https://tte.delhi.gov.in/
